

ACCESS TO GC3F IS (still) RESTRICTED!

Updated access rules for Recovery Stage 1:

RULE #1: ALL USERS MUST WEAR PPE & DISINFECT ALL SURFACES:

- Wear a **face mask & gloves** at all times (labcoat is optional).
- **Disinfect instruments & all contacted surfaces** (including door knobs, freezer handles, light switches) with 70% EtOH, **BOTH BEFORE & AFTER USE**, per instructions on each instrument.
- **Maintain ≥ 6 ft** from others, including during sample dropoff.

RULE #2: MAX OF 3 USERS (plus 2 staff) are permitted at any time.

- The iLab “Facility Access” calendar is no longer required. Yay!
- We have added **3 OCCUPANCY SIGNS** on our door.
 - ✓ When you **ENTER**, switch a sign to **OCCUPIED**.
 - ✓ When you **LEAVE**, switch a sign to **VACANT** (and disinfect sign).
- If all signs show **OCCUPIED**, you must **wait until someone leaves!**

RULE #3: For **INSTRUMENTS THAT REQUIRE RESERVATION** (qPCR, plate reader, etc.), you must **STILL** reserve time on that iLab calendar.

RULE #4: Access is only permitted to **FULLY TRAINED STAFF** (e.g. graduate students, postdocs, staff scientists). **New users are not permitted.**

RULE #5: Prior to entering GC3F, all users must **TAKE THEIR BODY TEMP** (on the same day) and **not enter GC3F** if their temperature is elevated or if they have any other symptoms of COVID-19.

RULE #6: **DO NOT PROP OPEN THE GC3F DOORS** at any time. Users must swipe their access card each time they enter, and **GC3F will verify card the access logs** against the Facility Access calendar in iLab.

RULE #7: Please report any **RULE VIOLATIONS** to genomics@uoregon.edu!!! Rule violations may result in **revoking your GC3F card access.**
